

FOR IMMEDIATE RELEASE

Raeko Software releases Axiom Sales Manager Version 3.0

Charlotte, N.C., April 23, 2009 - Raeko Software a leading provider of sales management software today announced the release of version 3.0 of its flagship product Axiom Sales Manager. Version 3.0 completes the transition of Axiom from a behind-the-firewall application to a fully hosted solution. "As a fully hosted application, we can now offer the power of Axiom to sales organizations without the need for capitol investment." said Edward Kosek, Principal at Raeko Software.

"We are now offering Axiom as a subscription service. Axiom users can upload their products, pricing rules, and prospects into the secure application and generate accurate, professional quotes and proposals in minutes with zero IT investment" Mr. Kosek said.

The subscription service for Axiom is offered on a month-to-month basis for \$18 to \$50 per month, per user depending on the number of users.

Axiom can still be deployed behind the user's firewall, if that platform is preferred. And, although Axiom is ready-to-go, Raeko offers custom configuration to fit any need.

About Raeko Software, LLC
